equipment, furniture, and fixtures, all in one lot, to sell at
an opportunity seldom met with.

EMM and CO., Auctioneers, in First-
Floor.

[illegible][illegible][illegible]

—

[illegible]

has been received from Mr. Leigh, superintendent of waves, a report upon the two recently discovered chambers of the new caves at Jomela. The reports on the new chambers are 40 yards from the entrance to the cave, and are not more than 40 ft. apart. The calcareous growths on both chambers are very similar to those on the other two, and the walls of both are covered with a white, crystalline deposit, and pinnacles not so small as Jomela. The ceilings are covered with a white excretion of carbonate of lime, from which deep long tapering stalactites hang down. The floor is composed of a snowy white to deep terra-cotta. The eastern portion of the floor and sides is coated with sparkling ripple-marked and crystallized calcareous deposits.

THE CASE OF JOHN DENNIS.—Mr. Waddell last evening brought up the report of the select committee on the case of John Dennis, who it may be remembered was indicted at Dabbs and found guilty of the robbery of the steamship *Albatross* two years' imprisonment. After serving about two weeks he was released owing to an inquiry initiated after the trial. The committee found that the case was not properly considered and that the sentence of the serious injunction done, and the

consideration of the Government.

REAL PROPERTY ACT.—Last evening Mr. Miller, M.L.A., introduced a Bill in the Legislative Assembly with a view to amending the Real Property Act and the Real Property Act Further Amendment Act of 1877, and to repeal the Land Titles Commutation Act of 1881. The Bill provides for the abolition of the Land Titles Commutation fee and the vesting in the Registrar-General of the duties associated and performed by those Comptroller of Land Titles. It also authorizes the Comptroller to transfer the duties to the Unofficial Land Titles Commissioners but constituted by payable into the Government fund hereafter under section 28 of the Unofficial Land Titles Act. The Bill is now before the Committee.

THE FISHERIES ACT.—Mr. Edden, M.L.A., introduced a Bill in the Legislative Assembly last evening, to amend the Fisheries Act of 1881. The Bill provides to amend the Act by requiring anything done in pursuance of the Act to be lawful for any licensed fisherman to use a hauling net in any waters not closed against net fishing, such net not exceeding 30 fathoms in length. The bill was passed last night.

GOVERNMENT VALIDATING OFFICER.—Mr. Slater, M.L.A., has been appointed to the position of

ROYAL SOCIETY.—The monthly meeting of the civil engineering section of the Royal Society of New South Wales was held in the society's hall, last evening. The President, Mr. C. W. Darley presided. A lengthy and interesting paper on "Highway Construction and Marine Paperwork Thereof" was contributed by Mr. J. I. Macdonald, M.L.A., and was ably supported by Mr. The author, who dealt in an exhaustive manner with his subject, traced the various modes of railway construction in different countries from the earliest times, in which history recedes down to the present day.

THE VANCOUVER MAIL STRAKER.—The Westmore laid yesterday afternoon for Vancouver. She will call at Honolulu. Her passenger list is not so large as that of the last time, but there is a fair patronage net the same time, the winter season in the northern latitude being close at hand. Of cargo she takes a large quantity, and is well supplied with provisions. She commanded the steamer, is going home a passenger and his place has been taken by the late chief officer—Mr. Arundel.

RECEIVED AT F.V.M. The steamer Birnigau left last night, for San Francisco.

to receive a copy of correspondence relating to the appointment of Mr. John Maier as Agent-General for Malaya and the Federated Malay States based on 22nd January, when Mr. Maier applied to the Government for the position rendered vacant by the resignation of Mr. E. Mitchell, and subsequently, on 25th January, when Mr. Dible recommended the appointment to the Executive Council, and it was formally confirmed. On the 18th September, the Secretary to the Trade and Labour Electoral League, the Colonial Secretary, together with a letter from the Melbourne Trades Hall Committee with an objection on its own account to the appointment of Mr. Maier, on the ground that, as his position was not a permanent one, the Australasian Union, he could not fairly administer the laws contained in the Act. On this letter the Premier wrote a reply, and in the course of it declined to accept the dictation of the Trade and Labour Union on the matter. If at any time a charge were made and proof offered that the gentleman named Maier had been guilty of any of the offences provided for in the Act, he would be removed. This closed the correspondence.

THE LARGH ELECTORATE.—A meeting of dissent intervened in the formation of a branch of the Labour Electoral League being established in the Largs Electorate was held in the Gyranshall, Ball, where Mr. J. G. Black, M.L.A., was elected chairman. Mr. G. Black, M.L.A., said that it was absolutely necessary for them to continue to return members to represent them, not only for the benefit of the electors, but for the benefit of the whole community. They needed to send members pledged to make a clean sweep from the Statute Book of those laws that had been enacted by the Government with no regard to the people who had not. If there had been any failure on the part of the members of the labour party, it was because there were not enough of them. But Mr. Black, M.L.A., was of the necessity of "knocking out" class-legislation.

gum report from Dr. Cobb, who has been the most reliable of the sugar-cane engagers and the main feature of the report have already appeared in the *Herald*. In addition, it may be stated that Dr. Cobb calls the gumming of the cane sugar a gum disease. He describes at length the symptoms of gumming, and reports that microscopic examination of a thin slice across a gummed cane shows the presence of a disease in general, but local. The gum, except in rare cases, is confined to the fibres; in fact, to the *vascular*, these latter being in fact plugged up with gum. The gum is high pointed, and the cane is suffering with the form known locally. This microbe appears to be one not here described, and he proposes to call it *cellulose vascularis* because of its occurrence in the *vascular* of the sugar-cane. Each fibre has about it a small amount of yellowish matter, which is a product of its growth.

Dr. Cobb asks:—What are the causes of the gumming of the cane? He says:—The microbes of the gumming? As a matter of hundreds of careful examinations he is able to say that the disease gumming as described here occurs without the yellow gummy matter, and without the yellowish matter which is the cause and one reason he advocated separating from Great Britain was that they might be able to control the gumming of the cane and the few laws necessary to govern free men. Mr. Huddle, M.L.A., declared that labor had not received any consideration in the country. He said that he was a laborer in New Zealand, and to give every man an equal opportunity. Mr. Davis, M.L.A., spoke of the success of the labor party at the last election, and declared that the Government would not be inconsistent in New South Wales at the next election. Mr. Douglas moved a resolution for the formation of the Labour Electoral League in the State of New South Wales, having been seconded, was unanimously carried.

MARINE ENGINEERS' WAGES.—An intercolonial conference of representatives of the various branches of the Australasian Institution of Marine Engineers, which was held at the Sydney branch, George and Market streets, yesterday, for the purpose of arriving at an understanding regarding the rates of wages which shall exist in the colonies, was opened by Mr. W. W. H. Smith, in the chair, and the delegates present were:—Messrs. T. D. Hay, Sydney;

that many coops were examined in which, spite of long and careful search, none but the poorest results were obtained. It could be said that Mr. Cobb thinks it very likely that the coops occur wherever case is grown. Dr. Cobb has been on to suggest remedies and preventives, proper care in the selection and draining, and inspiring by example.

TENDERS BOARD.—The following tenders were made by the Tender Board yesterday:—Erection of engine for engineer, pumping station, \$1,000; erection of motor shed, G. Elder, \$17 10s.; erection of motor shed, Newcastle city water extension, 17 tenders, lowest C. M. Clure, \$18 19s. 7d.

DAIRIES SUPERVISION ACT.—The report for the year on the administration of the Dairies Supervision Act was laid on the table of the Assembly last night. It states that the dairies are now in a more satisfactory condition, and the local authorities are more ready to co-operate in the efficient manner; much improvement having been done during the year by reason of the officers of the local authorities more thoroughly understanding the requirements of the Act. In previous years, the board caused the water supplies of the

of 103 samples so examined, 44 were found to be so polluted as to be unfit for use on dairy milch.

THE LABORER PARTY.—The new labour party, just combined, is expected to embrace about 25 members. Mr. Cook, who has been elected the leader of the party, holds a strong opinion on the question of the policy of the party in coming to obtain a solid vote on one or two questions likely to come before the House this session. Accordingly the plan is the old one to reform the law of evidence. What the party wants is "the recognition in the inevitable enactments of the natural and inalienable rights of the whole community to the fruits of the soil, to live, and from which labour a wealth is produced," by the taxation that value which accrues to land by the power and needs of the community, irrespective of the influence of business enterprise; and the abolition and irreparable loss of property on the part of all Crown tenants on improvements effected on their holdings. Thus the new labour party is not a party of "single-shares." Even the much-lauded scheme for Private Property Bill is to take second place to the reform of the law of evidence.

THE PRESENT PARTY.—The present party that took part in the last election, and that were the main support of the Government, have failed in their duty to the people, and that what were wanted were new men and new leaders.

THE BROKEN HILL COUNCIL.—About a month back Mr. Justice Foster heard the arguments in Chambers on two applications. The first was by Messrs. Hewitt and Smithson for an order that the Council should give their favour for £200,000 15s. 6d. against the Municipal Council of Broken Hill for extras claimed by plaintiffs, who were the contractors for the erection of the local town hall and fire engine shed. The second was for an order setting aside the award. Both matters were argued together, and yesterday His Honor delivered his reserved judgment, in which he refused to set aside the award, and made the rule nisi absolute to set aside the award.

NO PROSECUTION.—In the case of Arthur Hargrave and Joseph Mackay, charged with conspiracy at Melbourne, the Attorney-General has declined to prosecute.

DIVORCE MATTERS.—Mr. Justice Foster is in Divorce jurisdiction yesterday, and dealt with a number of applications to settle issues, &c. He is expected to hear a number of cases.

party require in this direction a recommendation of the Mining Act, to provide for all applications for mineral leases summarily dealt with by the local boards; the strict enforcement of labour conditions on such leases; the abolition of the leasing

IN PARLIAMENT.

The Legislative Council met for short two hours yesterday, and the time was mainly devoted to the debate on the second reading of the Mortgage Release Bill. Mr. Simpson, who has the bill, moved that it be introduced in committee, and the bill was accordingly introduced.

THE MORTGAGE RELEASE BILL.—The bill was introduced in committee, and the time was mainly devoted to the debate on the second reading of the Mortgage Release Bill. Mr. Simpson, who has the bill, moved that it be introduced in committee, and the bill was accordingly introduced.

THE SYDNEY MORNING HERALD. THURSDAY, OCTOBER 19, 1893.

SPECIAL CABLES.

FROM THE HERALD'S LONDON CORRESPONDENTS.

THE MATABELE WAR.

NO NEWS FROM THE FRONT.

MUCH ANXIETY FELT.

LONDON, Oct. 17.

Latest advices from Capetown report that the chief Khama, head of the Bamangwato tribe in Bechuanaland, who is assisting the British, has reached Tati, on the border of Matabeleland, with a force of 1500 men.

700 Matabeles are guarding 10,000 cattle 60 miles from Fort Tati. It is expected that Commander Rafto, at the head of the Boer relief force, will capture this outpost.

No news has been received from the front since Saturday, and much anxiety has been caused in consequence.

Oct. 18.

Sir Henry Loch, the British High Commissioner in South Africa, is proceeding from Capetown to Mafeking, on the border of Bechuanaland.

FRANCE AND RUSSIA.

THE RUSSIAN ADMIRAL AND OFFICERS IN PARIS.

ENTHUSIASTIC RECEPTION BY THE POPULACE.

LONDON, Oct. 17.

Admiral Avelon and the officers of the Russian fleet visiting Toulon arrived in Paris this morning, and were enthusiastically received by the populace.

The streets of the city were thronged. It is estimated that 100,000 persons witnessed the arrival of the Russian visitors. (The above appeared in a portion of yesterday's issue.)

RECEPTION BY PRESIDENT CARNOT.

TRIUMPHAL PROCESSION TO THE ELYSEES.

LADIES EMBRACE THE RUSSIANS.

LONDON, Oct. 18.

The delicious enthusiasm of the French over the visit of the Russians to Paris is astounding.

A triumphal procession to the Elysees, the official residence of President Carnot, took place yesterday, on the occasion of the reception of the Russian Admiral and his officers by the President.

The Russian visitors were accorded incessant ovations by the frenzied populace. Extraordinary scenes were witnessed. Well-dressed ladies embraced the Russians in the streets.

At the Elysees President Carnot extended a warm greeting to the Russians. His speech was pacific in tone.

THE REBELLION IN BRAZIL.

SINKING OF AN INSURGENT WARSHIP.

LONDON, Oct. 17.

Latest advices from Rio de Janeiro report that Marshal Peixoto, the President, has agreed to withdraw from certain positions in Rio, on an assurance being given by the representatives of the foreign Powers that they will not permit the city to be further bombarded by the insurgent fleet.

Another report from Rio de Janeiro has gone over to the insurgents.

The insurgent warship Urano has been sunk in the harbour of Rio.

THE EUROPEAN COPPER MARKET.

LONDON, Oct. 17.

The fortnight's imports of North American copper into Europe amounted to 6700 tons, the copper deliveries to all Europe in the same period being 9600 tons.

DEATH OF M. GOUNOD.

LONDON, Oct. 18.

The death is announced of M. Charles Gounod, the eminent musician and composer, aged 75 years.

Charles-François Gounod was born in Paris, on the 17th June, 1818. He entered the Conservatoire at the age of 20, and in the following year earned of the great "Bonne" his first Italian church music. On his return to France, he was followed by a series of successes. He was followed by "La Nonne Sanglante," "Sappho," and "La Colombe." Although these works contained unsatisfactory marks of genius, none achieved success. Indeed, few composers have risen to eminence before had more failures at the outset of their career than the author of one of the most successful of modern operas, "Faust," which, although not actually the first successful work of Gounod, was nevertheless his masterpiece. He was followed by "Faust," "Sappho," and "La Colombe." Although these works contained unsatisfactory marks of genius, none achieved success. Indeed, few composers have risen to eminence before had more failures at the outset of their career than the author of one of the most successful of modern operas, "Faust," which, although not actually the first successful work of Gounod, was nevertheless his masterpiece.

SOUTH AUSTRALIA.

ADELAIDE, WEDNESDAY.

The Legislative Council today, by a majority of two votes, decided to support the principle of the bill providing for amendment on unimproved land. Mr. Gurney spoke in a very able manner, making a strong point of the fact that the opponents of the measure were the British Empire in its defence of the country, and it was admitted that the most valuable of the land was in the hands of the British Empire. The bill was passed by a majority of two votes.
